OPENING DAY OF 1919 VICTORY LOAN CAMPAIGN

Big Campaign Starts Monday Morning, October 27th, to Obtain Three Hundred Millions.

Wake up! Wake up! Monday is the day that the Victory Loan opens.

Monday is the day that Canada shows the rest of the world that she is still on the job.

Monday is the day when we clean up the last spot left by the war.

Monday is the day when we have another chance to invest in bonds paying 5 1-2 percent and backed by a wonderful guarantee.

Monday is the day that Canada gathers into her treasury the necessary cash to fulfill her obligations to her soldiers and to the dependents of her glorious dead.

Monday is the day when Canada assures herself that prosperity will continue in the country.

They are all watching us.

Some of them say, we can't do it.

We'll show 'em.

Victory Loan 1919.

FALL CONVENTION FOR TEACHERS

The twenty-second annual convention of the Northern Alberta Teachers Association will be held in the Separate School, Third street, Edmonton, on Thursday and Friday, November 6 and 7.

An excellent programme has been arranged including addresses by such prominent educationalists as Dr. W.W. Swanson of the University of Saskatchewan, Hon. Geo. P. Smith, Dr. McNally, W. G.

Carpenter, H. C. Newland, Dr. McQueen, Rev. W. E. Edmonds and others. Topics of interest to all types and conditions of teachers will be discussed and this mutual exchange of ideas and ideals should prove very beneficial to all.

During the convention it is proposed to organize the teachers of the Wainwright inspectorate and for this reason Inspector J. Fowler desires to urge all teachers in this inspectorate to attend the convention. Registration will begin at 9:30 a.m. on November 6th.

LOCAL NEWS

Mr. and Mrs. Geo. Moore, of California are visiting Mr. and Mrs. G. A. Tripp.

Mr. J. W. Graydon, manager of the Co-op spent Monday in Edmonton.

Mr. F. McCready had his hand crushed in a gasoline engine but it is improving so that he will be able to use it in a few days.

Mr. and Mrs. Jas. Fenton returned to Irma Wednesday after spending a couple of weeks in the Stettler district.

Mr. K. A. Body has left for St. Paris, Ohio. Mr. Body has been farming south of Irma for some two years but has some property in Ohio which he intends disposing of after which he will return to his farm in Irma.

Monday morning M. J. Overbo house was burned, south of Kinsella. Mr. Overbo was lighting a fire with coal oil when the can exploded. Both Mr. and Mrs. Overbo were badly burned and Dr. McGregor of Irma was called to attend them. All the furniture and effects were destroyed.

Irma church anniversary services will be held on Sunday, Nov. 2nd. We expect to be favored with a visit from Rev. A. S. Tuttle, M.A., principal of Alberta College and to have special meetings for all the week following. Put this date down as important.

Proportional Representation —No. 4

Opponents of the adoption of the Proportional Representation system in connection with parliamentary, legislative and municipal elections, to which attention has been devoted in this series of articles, urge:

1. It is too complicated for the voters to understand.

The following was the percentage of spoiled ballots in some elections recently held under the P.R. system:

- (a) Sligo Municipal election: Votes cast, 2,251; spoiled ballots, 43. Of this latter number, 24 only were attributable to the new system, whilst 19 were declared invalid for other reasons. The percentage of spoiled papers due to the P.R. system was, therefore, just over 1 per cent.

Edinburgh election: Votes cast, 124,107; invalid from all causes, 2,750; percentage of invalid votes, 2.2.

2. The method of counting the votes is too elaborate and the process takes too long.

The following comments from places where P.R. has been tried may be taken as indicative of feeling on the question:

(a) Glasgow: The returning officer in one day counted no fewer than 124,000 votes, spread over seven electoral divisions of the city.

(b) Calgary: It took 4½ times as long to count ballots as under the old system.

(c) Kalamazoo: It took 6½ hours to count 4,461 ballots.

(d) Of the election in Sligo, "The Champion" of that city says: "The system has justified its adoption. We saw it work; we saw its simplicity. We saw its unerring honesty to the voter all through. . . . It is as easy as the old way; it is a big improvement, and it is absolutely fair."

It is very plain, very simple."

However, even if two or three days were consumed in counting the ballots, there are still over 36 days left in the year for the Government to function, and the new Parliament, Legislature or Council never takes office immediately. If P.R. secures more representative government, would not the time be well spent?

Again, is the ordinary voter concerned with the actual work of counting the ballots? Is not this done by appointed expert officials now? Could not the P.R. method be carried on by such officials also, and possibly by even more expert men than are now selected as returning officers?

3. It divides the electorate into groups and fosters group feeling.

Is not group feeling more apt to be inflamed by lack of adequate representation? In cities, where the ward system prevails, this same group or sectional feeling is cultivated, whereas under P.R., the ward system can be done away with, at the same time making adequate provision that minorities can secure their proportionate representation in the Council.

4. P.R., by giving complete repre-

sentation to the people, will weaken government and make it unstable.

This criticism is not borne out by experience where P.R. has been tried. The strength and stability of a democratic executive depend upon two factors—in personnel and its ability to interpret the will of the people. P.R. tends to strengthen the personnel. M. Georges Lorand, the well-known Belgian M.P., states that under P.R. not only were all parties represented in Parliament, but "they were represented by their ablest men and leaders, whilst under the former majority system prominent men passed half their lives outside the House. Parliamentary life has consequently gained in authority." "Perhaps the principal benefit of P.R.," he adds, "has been that political life, which has been intensified everywhere, has also been purified, the weapons employed being generally more courteous and more dignified."

Further, a democratic government will be stable if it interprets the will of the people correctly, and P.R., by making our public bodies completely representative of the people, places them in the hands of governments a more effective instrument for ascertaining what that will is. This explains why P.R. has rendered government in Belgium stable.

There are many other objections advanced against Proportional Representation, but these are the chief ones, and certainly they do not hold against the manifest fairness of the P.R. method to all people in the election of their representatives.

As pointed out in the first of these articles, the principle of Proportional Representation has now been endorsed in Canada by the National Liberal Convention, the Great War Veterans' Association, the Canadian Council of Agriculture, the Labor party, Social Service Councils, and numerous other reform organizations. It was endorsed by the recent Industrial Conference at Ottawa, and the Government has announced its intention of having an exhaustive inquiry made with a view to its adoption in Federal Parliamentary elections.

People everywhere should, therefore, embrace every opportunity that presents itself to study the question and become as fully informed as possible in regard to it, as it is practically a certainty that it will be adopted in Canada in the not distant future. It is to encourage such closer study that this series of articles has been written.

Price 35¢ cents a bottle; put up by The T. Millburn Co., Limited, Toronto, Ont.

Worms, however, generated, are found in the digestive tract, while they set up disturbances detrimental to the health of the child. There can be no comfort for the little ones until the hurtful intruders have been expelled, and a better remedy for the purpose can be had than Miller's Worm Powders. They will immediately destroy the worms and correct the conditions that were favorable to their existence.

Wool Brings Satisfactory Price

W. J. Stark, secretary of the Alberta Provincial Sheep Breeders' Association, received a check for \$65,762.20, being a remittance from the Canadian Co-operative Wool Growers Ltd., of Toronto, on account of the wool shipped there for sale by the local association, and which was contributed by 324 sheep owners in northern Alberta and six from British Columbia. The wool has not all been sold as yet, and this remittance is on the basis of 8¢ below the market price on each grade. When the balance of the wool is sold the contributors will be sent the amounts necessary to balance their accounts. The wool which has been sold has brought a very satisfactory price; some of the fine medium combing has been sold at 68½ cents per lb., the fine medium clothing brought 65 cents.

Canada Land Company Will Market Farms Next Spring

Water is now running over the south end of the Canada Land and Irrigation Company's reservoir at Lake McGregor, nine miles southwest of Lomond, Alberta. D. W. Hayes, general manager of the company, states that prospects are good for the colonization of large tracts of irrigated land in the district next spring.

Had a Very Bad Attack

OF Bowel Complaint

IT WAS CURED BY
DR. FOWLER'S
EXTRACT OF WILD STRAWBERRY

Any one suffering from bowel complaints such as diarrhoea, dysentery, colic, cramps and pains in the stomach, etc., will find relief in Dr. Fowler's Extract of Wild Strawberry and permanent relief than any other remedy on the market today.

This old tried and proven medicine has been used in this country for the past 74 years. You don't experiment when you buy it. Surely the test of time proves this.

Mrs. Daniel Hartwick, Mountain Grove estate, writes: "Used Dr. Fowler's Extract of Wild Strawberry and have found that it is a good remedy. When my little girl was 2½ years old she had a very bad attack of diarrhoea and constipation. The doctor advised to do her any good. She got worse, until we thought we would lose her. I got a bottle of Dr. Fowler's and she soon found relief. Everyone who has children should not be without it in their home."

Price 35¢ cents a bottle; put up by The T. Millburn Co., Limited, Toronto, Ont.

Prince Becomes Butter Dealer

To see him is a real patriot, Prince Louis de Bourbon, the pretender to the French throne, has just entered the butter trade. He is said to be well known for his butter, and if he can reduce the cost of butter, he will feel he has done his bit for the people.

Comfort for the Dyspeptic — There is no ailment so harassing and exhausting as dyspepsia, which arises from defective action of the stomach and liver, and the victim of it is to be pitied. Yet he can readily cure himself of this complaint. Vegetables with a preparation that has established itself by years of effective use. There are pills that are widely advertised as the greatest ever compounded, but none of them can rank in value with Parameeze.

Visitor to sweet child whose mother has left the room for a moment: "Come here to me, my dear."

Sweet Child: "No, I mustn't do that. Mamma told me I must stay sitting in the chair, because there's a hole in the cushion!"

BARGAINS IN STOCK

I don't interest myself in money, but I am interested in goods. Give me a bottle of Putman's Corn Extract. It is painless, takes out the corn, cures in one day. Beware of substitutes for "Putman's," it is the best, 25¢ at all dealers.

Missed a Mixup

An amusing incident in which the chauffeur of M. Clemenceau and M. Millerand, the Governor-General of Alsace-Lorraine, played the principal parts, occurred recently in Paris. The chauffeurs were driving their distinguished employers through one of the thoroughfares of Paris the other day, when in some way they nearly collided. Both drivers were convinced that the other was to blame, and with much gestulation began to abuse each other volubly. An unpleasant scene was developing when the chauffeurs recognized that the men they were driving were saluting each other from the carriage windows with every mark of amity and profound respect. The drivers' quarrel terminated abruptly, and with a superb air of dignified indifference they continued their journey.

When a man is sick he wonders if there is another man on earth capable of continuing his business in case he shuffles off.

Canadian Lumber In Britain

Prejudice Against Frame Houses Is Giving Way in Old Land

London.—Pressure in favor of wood houses in Britain has become so great that it is unlikely any local objections will have any weight against the intention of the ministry of health to override existing restrictions. A number of municipalities in Scotland have already taken steps to repeal restricting regulations. It is probable Scotland may lead Britain in wood construction.

It is understood Canadian parties are interested, and an estimate of the plan has been submitted to the ministry of health, housing committee, stating that the buildings proposed by the ministry's architects would be a discredit to Canadian industry, being ugly in appearance, inconvenient in design and will generally defeat popularity.

The raising of restrictions, however, will give Canadian house builders a vast market if they co-operate. They propose supplying Britain and Europe with materials for mill-cut houses. Complete enquiries as to Canadian houses have been received from France, Belgium, and Mediterranean countries, even as far east as the Palestines. The Montreal Star understands that one European order for 20,000 mill-cut houses has already been booked. Enquiries show that prospective orders in the near future will be well up to \$100,000.

British Salvaging Ships

Occasionally Divers and Surface Helpers Bring Up a German Submarine

The British are energetically at work undoing to a certain extent the work of the U-boat. Already it is reported that ships to the value of \$250,000 have been raised by the Admiralty's salvage department. In the case of colliers and some other vessels, the cargoes also are regained. Of course, costs of salvaging are heavy, but the profits are sufficient to warrant the effort.

No unusual methods are employed by the salvaging departments. Steamers with the most modern pumps and powerful lifting lighters are used now as heretofore. Until new methods are evolved there will be many ships in deep water which will stay there, but the majority of the sinkings were in comparatively shallow water. It even has been said that the Lusitania might be raised or, at least, the hull in her cargo recovered. In this connection it is interesting to note that \$9,500,000 worth of bullion recently was taken from the wreck of the Laurentic.

Occasionally the divers and their surface helpers bring up a German submarine, and perhaps a number of secrets of those craft have been revealed to the Admiralty. While the submarine fleet was surrendered after the armistice, it is well known that the Germans had removed many devices, which were peculiar and valuable accessories to these craft.

Minard's Liniment Relieves Neuralgia.

Bela Kun to Face Trial

For Incitement to Murder, Robbery and Forgery

Bela Kun and his associates are to be prosecuted for incitement to murder, robbery and forgery.

This man's name would be Adelbert Cohen, in English. Kun was heard of in Hungarian politics until last year. He is 37 years old and married. Before the war he was secretary of the local workers' union, in Lagyvarac, near Arad. He was arrested for stealing the union funds, 30,000 kronen, and prosecuted. On his promise to pay back the money in instalments he was released. When the war started he was mobilized with the rest of the Hungarians. He either deserted or was taken prisoner by the Russians, for about one year ago he was in Petrograd, acclaimed as one of the brightest pupils of Lenin. Supplied by funds from the Bolshevik treasury, he returned to Hungary and organized a reign of terror, organized the radical mob, and entered the field again.

During modern years this industry has been closely guarded as a Prussian government monopoly. In the future, with Lithuania a republic this industry can be greatly expanded with considerable profit, despite the fact that amber is one of the few things in the world which has diminished in value during recent years.

Baltic amber is not only collected along the shore, but it is mined from the so-called "blue earth" layers of the tertiary period well into the interior of Lithuania.

Excavations in Greece, Italy and Egypt have shown that Baltic amber was famous hundreds of years before the Christian era. Herodotus wrote of it, and beads, which the ancient Lithuanians must have bartered, were discovered in the Grecian ruins of Mikene, dating back to 1500 B.C.

You may have noticed that the man who can turn his hand to anything seldom has the price of a wooden overcoat, when he turns up his toes.

Experience is a good teacher, but some men are conceited enough to think that they can give experience a few pointers.

HOW TO "BE FIT" AT SIXTY

BY DR. LEE HERBERT SMITH

As our boys "came marching home," they brought a certain red-blooded doctrine, and showed us the glory of a perfect body. They will show us how to "keep fit," even if we have passed middle life and are beyond the athletic stage. For the tired business man, the man who feels the daily grind and the nightgag, has meager appetite, headaches, nerves unstrung, is gloomy, ending in a soggy brain, try the right way. Get out of bed, open the window, breathe deeply, exercise the army "setting-up" exercise, or use dumbbells, until in a warm glow.

Before breakfast take hot water, and occasionally castor oil or a pleasant laxative made up of May-apple, aloin, jalap, and sold by all druggists as Dr. Pierce's Pleasant Pellets.

As Prof. Strauss says, "The excretion of uric acid we are able to effect by exciting diuresis." Drink copiously of soft rain or distilled water, six or eight glasses per day, hot water before meals, and obtain Anuric Tablets, double strength, for 50¢ cts., at the nearest drug store and take them three times a day. If you want a trial package send 10 cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y.

"Anuric" (anti-uric-acid) is the recent discovery of Dr. Pierce and is much more potent than lithia, for it will dissolve uric acid as hot tea dissolves sugar.

Natural Salt

Beds in Alberta

Provincial Government Developing Immense Deposits Near Fort McMurray

Drilling for salt at Fort McMurray, Alberta, has just been commenced, according to an official of the Department of Mines.

An outfit, with seven men, has just been sent by the provincial government. The deposit underlays the town of Fort McMurray, so is feasible from the transportation standpoint.

According to previous investigations, there is a bed 180 feet deep, lying 480 feet beneath the surface, Professor Allan, of Alberta, was sent in by the provincial government a couple of months ago, and he reported very favorably.

It is not decided whether the government will mine salt, supposing everything is as expected, or whether it will turn the work over to a company.

Whether the corn be of old or new growth, it must yield to Holloway's Corn Cure, the simplest and best cure offered to the public.

Canada's forests embrace 350,000 square miles of pulpwood timber, estimated to yield 1,033,370,000 cords of pulpwood.

don, in memory of Lord Kitchener. It will cost \$50,000. A special chapel will shortly be installed in St. Paul's Cathedral, London.

Taken right, they restore normal condition while you sleep, morning finds you fresh and hungry, headache all gone, cheeks rosy, eyes bright, spirits good.

Impossible to feel dizzy, to have weak backs, be nervous, depressed, sleepy, or out of sorts. Con tonics regulate and cleanse the system with Dr. Hamilton's Pills. Good for men, women and children. Sold every where in 25 boxes.

THE COW PUNCHER

— BY —
ROBERT J. C. STEAD

Copyrighted, Canada, 1918, By The Musson Book Co., Ltd., Toronto. Printed by Special Arrangement.

(Continued)

At last he found it, but it read like this:

Fire this morning gutted the Great West Clothing Store with a loss of \$8,000, of which \$4,000 was covered by insurance in the Occidental. Frank Beecher, proprietor of the store, was overcome by smoke, and is in the city hospital.

Smoke was first issuing from the back of the store by Fred Grant, delivery boy for the clothing store, who turned in an alarm at 10:00. Owing to the fire team colliding with a "dry" owned by Sheppard & Co., some minutes of delay occurred. During this period the building, which was a frame, burned fiercely. It was almost completely destroyed, although some of the stock may be salable.

Beecher rushed into the back room for certain papers when he was found by Fireman Goss in an unconscious condition. He is recovering, and is already planning to rebuild.

Dave read the account with sinking heart. By the time he reached the end it seemed his heart could sink no further. He found that the editor had not left the office, so he approached him with as much spirit as he could command.

"I guess you won't need me any more," he said. "I'm sorry I made a mess of that fire story."

There was a kind twinkle in the chief's eye as he answered, "None-sense. Of course we need you. You have merely made the mistake everyone else makes in supposing you could write for a newspaper without training. We will give you the training — and pay you while you learn. The only man we can't use is the man who won't learn. Now let me give you a few pointers," and the editor got up from his desk and held the paper with the fire story before him. "In the first place, don't start a story with 'the,' at least, not more than once or twice a week. In the second place, get the meat into the first paragraph. Seventy-five per cent of the readers never go further than the first paragraph; give them the raw facts there; if they want the trimmings, they will go down for them. That is where a magazine story is exactly opposite to a newspaper story; a newspaper story shows its hand in the first paragraph, a magazine story in the last.

"Then, get the facts. 'Nobody cares whether the fire bell rang or not, but they do care about the man who was suffocated; who he was, what he was doing there, what became of him, Revell in names. Get the names of everybody, and get their right. The closest tight-wad in the town will buy a paper if it has his name in it. Every story, no matter how short, is good for a number of names." In your copy as you turned it up in the editor picked it up from his desk; he had evidently saved it for such an occasion as this—"the only name you had was that of the clothing store. I had one of the other boys get to work on the telephone, and you see he got the name of the proprietor; of the in-

surance company, with the amount of the insurance; of the man who turned on the alarm; of the owner of the dry team that obstructed the engine, and of the firemen who carried Beecher to safety. Every one of these people, with their families, their cousin, and their aunts, became especially interested in the story the moment their names are introduced.

"Next, remember that it is not the business of a reporter to pass editorial comment. It may have been bad that the fire engine was delayed, but that is a matter for the editor to decide. The business of the reporter is to find out why it was delayed, and state the facts, without regrets or opinions. You must learn to hold the mirror up to nature without making faces in it. You know what I mean—keep your own reflection out of the picture. If you think the incident calls for an expression of opinion by the paper, write an editorial and submit it to me. But remember that the editorial and news columns of a paper should be distinct as the two sides of a fence."

"Thank you very much," said Dave slowly, when it was plain the editor had finished. "I think I begin to see. But there's one thing I don't understand. Why did you not mention the origin of the fire?"

A flicker of amusement—or was it confession?—ran across the chief's face as he answered. "Because we don't know what started it—and Beecher is one of our best advertisers. To say the origin of the fire is unknown always leaves a smack of suspicion. It is like the almost imperceptible shrug of the shoulder at the mention of a woman's name. You can't get away from it. And it is the advertiser who keeps the paper open. I know it's not idealism, but idealism doesn't pay wages and paper bills, and as long as readers demand papers for less than it costs to print them they will have to take second place to the advertiser."

"Then all reports are to be colored to suit the advertiser?" demanded Dave.

"No. Where a principle is involved—and we have principles, even in these degenerate days—we stand by the principle, even if we lose the patronage. Our notions of what is for the public good have cost us a lot of money at times. You see, the exploiter is always ready to pay his servants, which is more than we have said of the public. But where no real principle is involved we try to be friendly to our friends."

With these fresh viewpoints on his profession Dave entered upon his work the following day chanced but determined. Almost immediately he found the need of acquaintance-ships. The isolation of his boyhood had bred in him qualities of aloofness which had now to be overcome. He was not naturally a good "mixer"; he preferred his own company, but his own company would not bring him much news. So he set about deliberately to cultivate acquaintance with the members of the police force and the fire brigade, and the clerks in the houses. And he had in his character a quality of sincerity which gave him almost instant admission into their friendships. He had not suspected the charm of his own personality, and its discovery, feeding upon his new-born enthusiasm for friendships, still further enriched the charm.

As his acquaintance with the work of the police force increased Dave found his attitude toward moral principles in need of frequent readjustment. By no means a Puritan he had, nevertheless, two sterling qualities which so far saved him from any very serious misstep. He practiced absolute honesty in all his relationships. His father, drunken although he was in his later years, had never quite lost his sense of commercial uprightness, and Dave had inherited the quality in full degree.

And Reenie Hardy had come into his life just when he needed a girl like Reenie Hardy to come into his life. He often thought of Reenie Hardy, and of her compact with him, and wondered what the end would be. And meanwhile he found the need of frequent readjustments. He became aware of the fact that in every community there are two communities; one on the surface, respectable, discreet, conventional; and one beneath the surface, to which these terms would not apply. He found that the province of the police was not to enforce morality, but to prevent immorality becoming obnoxious. Anything almost, might go on so long as its effects were confined to the voluntary participants. Underneath the sham of good behavior was a world, known to the police and the newspaper men, and a few others, which refused to accept standard conventions and lived according to its own impulse. And this world included so-called best citizens, of both sexes. And they were good citizens. It seemed the community had two natures; a sort of Dr. Jekyll and Mr.

HOW THIS NERVOUS WOMAN GOT WELL

Told by Herself. Her Security Should Convince Others.

Christopher, Ill.—"For four years I suffered from irregularities, weakness, nervousness, and was in a run down condition. Two doctors failed to do me any good. I heard so much about Lydia Pinkham's Compound that I got a bottle Compound had done for others, I tried it and was cured.

"I believe in the Compound with complete faith in its value,"—Mrs. Alice Hellen Christopher, Ill. Nervousness is often a symptom of weakness or some functional derangement which may be overcome by a famous remedy—Lydia Pinkham's Vegetable Compound, a thousands of women have found by experience.

For further information, write Lydia E. Pinkham Medicine Co., Lynn, Mass., for suggestions in regard to your ailment. The result of its long experience is at your service.

(To Be Continued.)

Queen Mary (then Duchess of York) and the Countess of Aberdeenshire were the first women to receive honorary degrees from any Canadian university.

An Ohio girl who is unable to speak above a whisper has had forty-seven offers of marriage.

One morning, as he sat with Carson of The Times at the reporters' table in the police court, listening absently to the clerk calling a list of names, his companion, with a grimace, intimated that there was something beneath the surface. "Pure fiction," he whispered, as the list was completed. "It would do you good to know who they are. Shining lights, everyone of them. And when they are lit up they can't be kept under a bushel. The police just had to do something. They won't be here—not one of them. Their lawyer will plead guilty, and pay the fines, and every one will be sorry—they were caught. Even his nobs on the bench isn't twice as happy. It was by good luck he wasn't with the bunch he's said of the public. But where no real principle is involved we try to be friendly to our friends."

With these fresh viewpoints on his profession Dave entered upon his work the following day chanced but determined. Almost immediately he found the need of acquaintance-ships. The isolation of his boyhood had bred in him qualities of aloofness which had now to be overcome. He was not naturally a good "mixer"; he preferred his own company, but his own company would not bring him much news. So he set about deliberately to cultivate acquaintance with the members of the police force and the fire brigade, and the clerks in the houses. And he had in his character a quality of sincerity which gave him almost instant admission into their friendships. He had not suspected the charm of his own personality, and its discovery, feeding upon his new-born enthusiasm for friendships, still further enriched the charm.

As his acquaintance with the work of the police force increased Dave found his attitude toward moral principles in need of frequent readjustment. By no means a Puritan he had, nevertheless, two sterling qualities which so far saved him from any very serious misstep. He practiced absolute honesty in all his relationships. His father, drunken although he was in his later years, had never quite lost his sense of commercial uprightness, and Dave had inherited the quality in full degree.

And Reenie Hardy had come into his life just when he needed a girl like Reenie Hardy to come into his life. He often thought of Reenie Hardy, and of her compact with him, and wondered what the end would be. And meanwhile he found the need of frequent readjustments. He became aware of the fact that in every community there are two communities; one on the surface, respectable, discreet, conventional; and one beneath the surface, to which these terms would not apply. He found that the province of the police was not to enforce morality, but to prevent immorality becoming obnoxious.

Anything almost, might go on so long as its effects were confined to the voluntary participants. Underneath the sham of good behavior was a world, known to the police and the newspaper men, and a few others, which refused to accept standard conventions and lived according to its own impulse. And this world included so-called best citizens, of both sexes. And they were good citizens. It seemed the community had two natures; a sort of Dr. Jekyll and Mr.

Will Morning Never Come

DOES this illustration picture your experience?

What is more distressing than being unable to sleep?

Sleeplessness is one of the first and most certain symptoms of exhausted nerves.

This is the warning that you need the assistance of Dr. Chase's Nerve Food to restore vigor to the nerve cells and thereby avoid the development of serious nervous trouble.

By improving the quality of the blood and building up the nervous system this food cures brings new energy and strength to the whole body.

Contains a box, 6 for \$2.75, all dealers, or Emerson, Bates & Co., Ltd., Toronto.

Dr. Chase's Nerve Food

good fee and having saved a number of his personal friends from a public exposure which would have been, at least, embarrassing. As the lawyer passed the reporters' table Dave felt something pressed into his hand, and heard the whispered words, "Split it."

In his hand was a ten dollar bill. "What's the idea?" said Dave to Carson, when the session was over.

"The idea is that I get five," said Carson, "and both of us forget it. Cheap slate, he might have made it twenty. Of course, the names were bogus, but they couldn't risk mentioning even that with precaution. Easy picking, isn't it?"

"It doesn't look quite right," Dave faltered. "I'm here to get the news—"

"Oh, can that." You know we don't publish all the news. Why, man, we'd wreck society, or the ship of state, or whatever it is we are all floating on if we did that. We've have every law in this country to help us. And they're making too much money already. What the world doesn't know the world doesn't grieve over. And the joke of it is, everybody thinks he's putting it over somebody else, and while he's busy thinking that somebody else is putting it over him. So they're about even in the finish. Besides, if you talk about principles, doesn't the Bible say to do unto others as you would that they should do unto you? How would you feel in their position?

(To Be Continued.)

Sick headache, biliousness, coated tongue, sour, gassy, stomach—always irritable, irritable, irritable, always delayed feeding in the bowels.

Poisonous matter clogged in the intestines, instead of being cast out of the system, is re-absorbed into the blood, which thus poisons reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, and stop indigestion, flatulence, and foul gases; take the excretions from the liver and carry off all the constipated waste matter and poisons in the bowels.

Cascarets tonight will have you feeling clear, rosy and as fit as a fiddle by morning. They work while you sleep.

This is the season when you are thinking of where you will spend the winter. You cannot do better than consult Grand Trunk Pacific representatives. The railway and steamship route to North Pacific Coast points and California is the new way and is without a peer. The ocean voyage thru the quiet seas of the "Inside Passage" between Prince Rupert, Vancouver, Victoria and Seattle is the finest ocean trip in America. Winter rates will be announced shortly. For information and literature apply to any Agent of the Grand Trunk Pacific Ry. or write W. E. Duperow, General Passenger Agent, Winnipeg, Manitoba.

Burglars In Town.

Last Friday night burglars broke a window in the pool room and took one razor, a jug of elder and a shot gun. From there they went to the back of the Co-op store and used the shot gun to break a window. At the store the only thing they secured was some small change in the cash register. In their hurry they left the shot gun and a glove. Apparently they were novices at the job as the way the glass was scattered around it must have made considerable noise when it was broken.

VIKING

The snowfall on Monday started some of the old-timers talking about the early winters of 1905-6. George Loades add W. J. Jones met on the street and mentioning the snow, recalled memories of the pioneer days. Neither of them believe the snow will stay very long but expect a month of Indian summer yet. Nevertheless everybody is filling up their coal bins, putting on the storm doors and windows, and banking up the house, in case Jack Frost slips another one over.

At a recent athletic competition held at the Canisius Normal school, Miss Reenie Maxwell, of Viking, was awarded the Normal school medal for the best all around girl athlete for 1919. Miss Maxwell had the highest average of points, competing with 24 girls. There are eight young ladies from this town and district attending the Normal and they are making their presence felt in the scholastic halls of learning. When the winner of the medal was announced, they burst into yell enthusiastically;

She's from Viking, can't you see! The best little town on the G.T.P., Is she in it, well I guess, Viking, Viking, Yes, Yes.

Miss Helene Hagedorn, representing the Dominion chautauqua, was in town Saturday and secured sufficient signatures of business men, citizens and farmers to guarantee the appearance of a three day summer chautauqua to be held in July next. The entertainments will take place under a big tent and will consist of a program each afternoon and evening.

The chautauqua movement in Canada has passed the experimental stage and programs are now guaranteed. The first season, managers as well as several communities were stung on some widely advertised attractions that proved a fizzle much to the disgust of everybody, but this has been eliminated and everywhere towns are asking for return engagements, and chautauqua has become an established institution which is looked forward to eagerly every year.

The congregation of the Community church and friends held a public reception for Rev. and Mrs. J. A. Wheeler last Friday evening. The church was crowded to capacity when Mr. Cooke announced that he had been pressed into service as chairman and in the course of a few remarks stated the reason for the gathering, after which Mr. T. H. Stowe was called upon for an address of welcome. Mr. Stowe reviewed his coming to Viking some fifteen years ago from England and found it very lonely especially on Sabbath day with ~~t~~ any public worship. He described the first service held in town and the subsequent growth of the work and the ultimate union of the various denominations under one roof, which, he stated, was both pleasing and progressive, and he was heartily in favor of the movement as he wanted always to be up-to-date in church matters if he thought it was in the best interests of the church. On behalf of the church and community he extended a warm welcome to the new pastor and his estimable wife.

Rev. Mr. Wheeler was then introduced and said this was the first time in his life he had been received by such a gathering, a union of denominations in a community church, something which he had advocated for the past seventeen years, and the welcome, he considered, was a sort of crowning event in his life, and thanked the audience for the hearty welcome. He realized the responsibilities of assuming the pastorate and asked for the co-operation of all in the great task before him. Mr. Wheeler is a fluent and eloquent speaker, and the congregation may well feel that they are fortunate in having secured a man of ability and deep sincerity to lead in the work which is practically only in its experimental stage, not so much in Viking, but in the world at large, and the success of the venture here will no doubt be watched with considerable interest by other communities that are trying to overcome the difficulties pertaining to a union movement.

Economy: IN FARM BUILDINGS

TO GET THE LEAST WALL AREA—TO SAVE BUILDING MATERIAL—TO SAVE IN COST OF CONSTRUCTION—
TO REDUCE HEAT LOST THRU WALLS

Are all considerations of Economy

Sometimes too little money is invested in farm buildings, in which case undue labor is required in taking care of the stock. Work is often done at a great disadvantage, to save a few dollars when the buildings are being constructed.

Plank Frame Barns—using nothing heavier than 2 inch plank—cost less to build and are becoming very popular. The principal reasons for this are, that his method saves in cost of lumber and provides for more storage room in the hay loft.

OBITUARY.

Greenwood—died, at Edmonton hospital, October 8th, Mary Ellen, aged 38 years, beloved wife of Mr. William Greenwood, Kinsella, Alberta.

Strayed—Red heifer, yearling KF on right hip, rips off both ears. W. Senkins, Jarro.

For SALE—About 80 tons of hay and straw—Jos. Brickman, Phillips P.O. 24-5p

Woodrow Wilson, the star pitcher for the League of Nations, in the world's series in France, was knocked out of the box when he came back to show the home folks how he did it.

**TARDINESS OF
INSPECTOR LOSES
SOLDIER LAND**

To take a thirty day option on a farm, to make application for the farm through the Soldiers' Settlement Board, to wait, continually ask, and almost pray for the board to inspect the land and give their approval and then to have the land inspector reach the farm two days after the option had expired has the experience of J. G. Hogg with the Soldiers' Settlement Board.

The option, as a consequence to the laxity of the S.S.B. was constantly worthless until the inspector arrived to Hogg's prospective home. "It's no use coming here to inspect the land now. I've been waiting for you for thirty days," said the farmer. And so it was that after waiting and searching for land for over two months, J. S. Hogg, a returned soldier and a married man, discovers himself in the same position as two months ago, with the exception that his banking account is minus the expenses necessarily incurred and the money he might have earned and saved had he been working.

"Yes, two months have been absolutely wasted for me. And what is more my chances for an excellent piece of land, owned by J. A. Hagerty and situated at Doreen, south of Camrose, have been thrown to the winds by the system, lack of it rather of the Soldiers' Settlement Board," remarked Mr. Hogg. He described his case as not being a singular one. "There are hundreds of other fellows who are being put to the same trouble and expense. And it is a rotten shame," he declared.

Moved by Mr. Smallwood that correspondence of dept. municipal affairs re seed grain advances be tabled until next meeting. Cd

Moved by Mr. Smallwood that see'y instruct Mr. Fieldhouse & Hunter on NE 4-15-9-w4 be tabled until next meeting. Cd

Some Chickens.

Mr. I. E. Jones has just received some of the finest Buff Orpington chickens that we think have been shipped into the district. This includes four pullets and two cockerels which were shipped from Hazlewood, Indiana. They are from the pen that took the first prize at the Madison Square garden show, New York and should be a credit to our fair next year.

SPECIAL ATTENTION GIVEN TO AUTO PARTIES

Otto Bethge, Proprietor

British Premier On Need of the Hour

London.—In a speech at Sheffield, Premier Lloyd George urged the need of greater productivity on the part of the nation. He pointed out that the national debt was nearly £8,000,000,000. He said wages had doubled, the hours of work were curtailed and the standard of living was higher than ever, but that that standard should not be preserved by a concourse of tribunals or the decisions of labor conference.

The Premier called upon the British people to see that the peace was a real peace.

"It is not the British habit," he said, "to nag, harry, insult and trample a bleeding foe. So long as Germany conforms to the conditions we have laid down, we must give her a clear chance to lead a decent, peaceful and honorable existence."

Some Teamsters Still on Strike
New York.—Striking members of the International Brotherhood of Teamsters, Chauffeurs and Hatters, most of whom are employees of the American Railway Express company, voted to remain on strike after a meeting attended by 2,500 in Cooper union, while other teamsters engaged in transporting milk in the city decided to accept an increase of \$5 and \$6 a week, offered by the milk companies, instead of the \$10 weekly increase demanded by the men.

The express drivers' vote was practically unanimous, only one negative vote being recorded.

Contradictory Reports
Stockholm.—Reports regarding Pskov are contradictory, some declaring that the town was taken by Esthonians, and others that its capture had been delayed owing to the destruction of the railroad tracks. The station, both to the south and north, according to advices received here, are known to be in the hands of the White forces.

Riga More Normal
Helsingfors.—Conditions are becoming more normal in Riga following the German Russian attempt to capture the city, it is stated in advices received here.

Most of the newspapers are again appearing. Supplies are short, however, and prices of commodities are soaring.

Print paper from Prince Rupert
Prince Rupert, B.C.—Thirteen carloads of paper made at Ocean Falls and consigned to the New York Times, are on their way east from Prince Rupert. This paper was made from pulp furnished by spruce logs felled on the Queen Charlotte Islands during the airplane industry which concluded with the signing of the armistice.

Canadians Anxious To Come Home

Great Britain Is No Place for the Holiday-Maker at Present

Ottawa.—The Department of Immigration and Colonization has received by cable a warning from England that there are thousands of Canadians on the other side anxious to come home, but unable to secure return passage for at least six months. It is said that this situation is being accentuated by the arrival of visitors from Canada. When the cable was sent from London rationing had been resorted to. The weekly allowance was: Butter, 1 ounce; sugar, six ounces; coal, 100 pounds; meat, 40 cents' worth.

Canadians who contemplate a visit to the mother country should take into consideration the impossibility of returning within a few weeks after arriving there.

Want Prohibition in France

Paris.—The fight against alcohol will be a leading plank of the national platform in the forthcoming elections. Ministers are demanding the absolute suppression of alcohol, and the walls of Paris and the larger cities are already plastered with these demands, pamphlets and posters have been mailed by the hundred thousand to hotels and individuals in the provinces.

"If France does not suppress alcohol, will suppress France," the posters proclaim in huge characters, and add, "Three million individuals live upon the traffic of alcohol; thirty-five million suffer and die from it."

Pensions Laws Give Little Complaint

Winnipeg.—Lieut-Colonel John Thompson, chairman of the Pensions Board, Ottawa, and Major Stanley Corstine, commissioner, arrived in Winnipeg for a routine inspection of the pension offices here. The commissioners have inspected the divisional pensions offices in Manitoba, B.C., Alberta, Saskatchewan and report that there was very little complaint as to the manner in which the pensions law was administered in the West. In practically all instances they found that a proper explanation of the regulations eliminated the reasons brought forward by the complainants.

Want Stamped Cheques

Winnipeg.—The Federal Government is being asked to arrange for an issue of cheques for the use of all chartered banks which will bear the two-cent stamp.

Hungarian Peace Pact Delayed

No Government in That Country With Which Supreme Council Can Deal

Paris.—The supreme council and the peace conference will probably not end officially until after the Hungarian treaty is concluded, but only a few members representing the various governments will remain to complete the work.

An entirely new set of delegates will probably be instructed to negotiate the treaty with Turkey when the allied and associated powers learn whether the United States will accept a mandate for Turkey or a part thereof, and are able to agree on the disposition of the Turkish territory.

The Bulgarian delegation is now on its way back to Paris and there is every indication that the Bulgarian treaty will be disposed of shortly. Only the Hungarian treaty remains to be negotiated.

There is no government in Hungary with which the conference can deal, but the treaty draft is practically completed in Paris and should be recognized by government in Budapest before December 1, arrangements will probably be made to have a few delegates remain in Paris to negotiate a treaty with Hungary, whenever a satisfactory government is established.

No Dealings With Bolsheviks

Supreme Council Proposes Shutting Off Russia From Intercourse With World

London.—The text of the note of the supreme council inviting Germany to participate in the blockade of Russia as published by the Berlin Tageblatt, and reprinted by the Daily Herald, shows that Sweden, Norway, Denmark, Holland, Finland, Spain, Switzerland, Mexico, Chile, Argentina, Colombia and Venezuela have been invited to initiate measures to prevent their nationals from engaging in any trade whatever with Bolshevik Russia. The measures are thus enumerated:

1. Refusal of permission to sail for every ship bound for a Russian Bolshevik port, and the closing of all ports to ships from Bolshevik ports.

2. Similar regulations to be adopted with regard to all goods destined for Russian ports by another route.

3. Passports will be refused to all persons, to or from Bolshevik Russia.

Isolated exceptions may be made by agreement of the allied and associated powers.

4. Measures will be taken to hinder bankers from granting credit to commercial undertakings in Bolshevik Russia.

5. Every government will refuse its national facilities of intercourse with Bolshevik Russia, whether by post or wireless telegraph.

Marshal Foch added the following instructions: "Inform the German government that the British and French men-of-war in the Gulf of Finland will continue to blockade Bolshevik ports and detain, from the moment they come in sight, any ships bound for Bolshevik ports."

The preamble to the note declares that the open enmity of the Bolsheviks is directed against all governments and that programs of international evolution circulated by them constitute a grave danger to the national security of all the powers.

The note also states that the Bolsheviks are directed against all governments and that programs of international evolution circulated by them constitute a grave danger to the national security of all the powers.

The note also states that the Bolsheviks are directed against all governments and that programs of international evolution circulated by them constitute a grave danger to the national security of all the powers.

A Butterfly Farm

Vegetation Consists of Shrubs on Which Caterpillars Live

An unusual "farm" has been started near Macon, France, by Mr. Andre, a French entomologist. Mr. Andre raises butterflies and silkworms, and the vegetation of his farm consists of mulberry, oak, ash, cypress, lilac, pine, plum, hawthorn, and other trees and shrubs on which the caterpillars that become butterflies live. In fancy the butterflies are protected by being inclosed in tulip bags which are fastened to the twigs or branches on which the young caterpillars are to feed; as the caterpillars get bigger the tulip bags are taken away, and the caterpillars left free to spin their cocoons, which are collected from the trees and bushes very much like some strange kind of fruit and placed in little wire cages until the perfect butterflies emerge. On this side, the work of the butterfly farm is commercial, but no less important is the experimental work of the farm with silkworms, by which sooner or later the butterfly hopes to provide the world with silkworms that will produce a fine grade of silk in a northward climate.

"Getting Sacked"

From the shores of the Bosphorus sombre, gloomy, menacing for many, comes this addition to our slang dictionary.

One of the sultans of Turkey, always ingenious in matters of this kind, conceived of a new method of disposing of members of his harem of whom he had tired. The former object of his affection was put into a sack and thrown into the Bosphorus, and travellers in Turkey, learning of this novel process, brought back with them to the civilized world the expression "getting the sack."

Sixty Acres Broken in Nine Days

Ease and Rapidity With Which the Prairie of Western Canada Can Be Broken Up

An example of the ease and rapidity with which the virgin prairie of Western Canada can be broken up and made ready for crop is provided by Mr. Howard Blachly, who is farming 480 acres of irrigable land in Southern Alberta, between Duchess and Patricia.

Mr. Blachly came to Alberta from Idaho some five or six weeks ago, when he inspected the land and purchased it. He returned to Ohio and, after disposing of his property in that state, returned to Alberta. He purchased a Tilton 10-20 h.p. tractor and, with one man to help him, started breaking on September 2nd. Nine days later Mr. Blachly had plowed 60 acres and had 45 acres of this double disced and harrowed.

Mr. Blachly is naturally very proud of this performance and states he has never seen land which works up in better shape.

Many men get ahead by inducing other men to put their shoulders to the wheel.

It Works! Try It

Tells how to loosen a sore, tender corn so it lifts out without pain.

Good news spreads rapidly and druggists here are kept busy dispensing the secret of a Cincinnati man, which is said to loosen any corn so it lifts out with the fingers.

Ask any pharmacy for a quarter ounce of freeze, which will cost very little, but is said to be sufficient to rid one's feet of every hard or soft corn or callus.

Just apply just a few drops on the tender corn and instantly the soreness is relieved, and soon the corn is so shrivelled that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the adjoining tissue.

This discovery will prevent thousands of deaths annually from lockjaw and infection, heretofore resulting from the suicidal habit of cutting corns.

Tobacco smoke is one of the pet abominations of the former German Kaiser, so that the exiled Wilhelm, the once most highest, has to go into the garden of Castle Bentinck when he wishes to enjoy his cigar or cigarette.

People who are looking for trouble are fortunate in one respect, at least—they seldom meet with disappointment.

WELL SATISFIED WITH BABY'S OWN TABLETS

Mrs. A. Bernard, La Presentation, Quebec, has had Baby's Own Tablets for my baby and am well satisfied with them. I have recommended them to several of my friends, who have also used them with great success. The tablets are a safe, but thorough laxative which regulate the stomach and bowels and thus prove benefit in cases of indigestion, constipation, colic, colds, etc. They are sold by medicine dealers by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

Proved

He: Then you consider woman more intelligent than man?

Miss: Forward: Decidedly! Man hasn't even intelligence enough to recognize his inferiority.—Boston Transcript.

Dragged Down By Asthma.—The man or woman who is continually subject to asthma is constantly in a state of work. Strength and energy is taken away until life becomes a dreary existence. And yet this is needless. Dr. J. D. Kellogg's Asthma Remedy has brought a great change to an army of sufferers. It relieves the restricted air tubes and guards against future trouble. Try it.

Hard at Work

The rapidity with which Belgium got on its feet again suggests that the Belgians didn't sit down and haggle about how many hours a day they should work.

Western Farmlands Boom Only Starting

Americans Coming Into Western Canada Intend to Remain

Farm lands in the good agricultural districts of the West will be much in demand in the next two years, according to Arthur Jackson, Winnipeg, farm land agent, who says that the movement of American farmers to Western Canada has only just begun. That the Americans who are already flocking into the country intend to settle down is evidenced by the fact that they are bringing stock and implements with them.

The reason for the influx of Americans is the boom in Middle West farm lands. Farmers in Iowa and similar states can sell their land now for as high as \$415 an acre, and coming to Canada purchase the best of our western lands [sic] for from \$20 to \$85 an acre, depending on location.

So great is Mr. Jackson's faith in the marketable value of farm lands in Western Canada that he expects to take a trip in about six weeks through North and South Dakota, Minnesota, Iowa, Ohio and Illinois, where he will place large blocks of land on the realty market. Later he will visit the eastern provinces of Canada for the same purpose.

Minard's Liniment Cures Dandruff.

Interesting War Statistics

The British Empire's Total of Fighting Men for the War

Prior to the call to hostilities the United Kingdom had under arms only 733,514 men. During the war nearly seven times that many have been recruited; in all, 4,970,902 — 4,066,158 from England, 557,618 from Scotland, 272,924 from Wales and Monmouth, and 134,200 from Ireland. Thus from a population of 47,000,000 Great Britain and Ireland gave a total of nearly 6,000,000. The overseas dominions added about twenty-five per cent more: France, 5,399,626; Australia, 416,800; New Zealand, 22,099; South Africa, 136,070; Newfoundland, 11,922; the smaller colonies, 12,000—in all, 1,425,864. To these India added 1,401,350. Colored troops from other parts of the Empire number 122,837. The British Empire's total of fighting men for the war reached, therefore, no less than 8,654,467. These were distributed as follows: France, 5,399,626; Italy, 1,195,784; Sardinia, 40,926; the Netherlands, 467,987; Mesopotamia, 889,702; Egypt and Palestine, 1,192,511. The casualties reported number in France and Belgium, 2,724,203; in Italy, 6,926; at the Dardanelles, 119,578; in the Balkans, 28,692; in Mesopotamia, 111,549; in Egypt and Palestine, 59,996; in East Africa, 19,572. Worked out in percentages to the total sent overseas, the casualties classify thus: For the United Kingdom, 43 per cent; Canada, 44.8%; Australia, 63.36%; New Zealand, 50.7%. The United States sent 204,000 men to France, and the casualties were 264,998, or 13 per cent. —The Round Table.

You can learn a little each day—unless you are one of those persons who know it all.

Taking things as they come and selling them at a profit begins success.

Many mothers have reason to thank Mother Graves' Warm Extomotor, because it has relieved the little ones of suffering and made them healthy.

Ex-Kaiser's Castles Looted

Valuables Taken From Berlin By Underground Methods

Thefts from the castles of former Emperor William and the Crown Prince Frederick, not only during the revolution, but during the January and March riots of the Spartacists and Communists, are still engaging the attention of the police. Slowly the authorities have been able to trace some of the valuables that were filched by the sailors who occupied the ex-emperor's palace and that of his son for a time, but an immense amount has been taken from Berlin by underground methods, and may never be recovered. From the palace of William I. there have been stolen figures in bronze and ivory, a pastel of Queen Louise, vases, letter containers, silver trays, Japanese silk portieres and curtains, decorative weapons, medallions, watches and mirrors. The Crown Prince's residence suffered similarly. Cigarette cases, of which the Crown Prince had a wonderful collection, are missing, a jewelled collar, writing material, clocks, a watch set with diamonds, and two sapphires, two automobiles, five hunting guns and a gold revolver.

The rapidity with which Belgium got on its feet again suggests that the Belgians didn't sit down and haggle about how many hours a day they should work.

Kitchen Economy

If you consider its body-building powers Bovril is probably the most economical food you can buy. No other food, no matter how high its price, has been proved to possess Bovril's wonderful body-building powers. Bovril saves butchers' bills and is a great economiser in the kitchen.

Photograph Kaiser

Former Emperor Offers Large Sum to Suppress Pictures

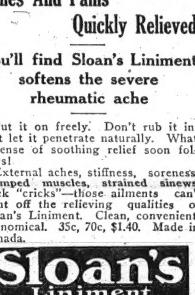

Strong efforts are being made to prevent the publication of photographs of former Emperor William of Germany, taken recently by two Dutch photographers, who were concealed in a load of hay near Count Hohenlohe's temporary home. The former emperor is said to have offered a large sum for the negatives and all prints made from them. The correspondent of the Associated Press has seen the pictures, which show Count Hohenlohe bearded and sturdy appearing in a happy mood, while talking to his wife and General Gontard, unconscious of the presence of the camera man.

Nothing to Show Em

An American who has lived in England a great many years recently said to me: "When I first came over I thought the English were slow, easy and had to be shown. Now I still think that they are slow, but they are certainly not easy, and I'll be hanged if I've got anything to show 'em."

Put it on freely. Don't rub it in. Just let it penetrate naturally. When a case of soothng relief soon follows.

External aches, stiffness, soreness, cramped muscles, strained sinews, back "cricks"—those ailments can't be cured by the inferior qualities of Sloan's Liniment. Clean, convenient, economical. 35c, 70c, \$1.40. Made in Canada.

Best Time to Plow

Never plow ground when it is dry, and never plow ground when it is wet, says Campbell's Scientific Farmer. To plow heavy soil when dry is a positive injury to the soil and a needless waste of power. It is always best to wait until the upper layer is sufficiently moist to turn over easily and crumble readily. Plowing should be done when the soil is in the best condition to respond to the pulverizing effect of the mouldboard.

Do not suffer with piles. Take this simple laxative with nothing else. It is a safe, effective and reliable remedy for piles. No surgical operation is required. Dr. Chase's Ointment will relieve you at once from piles. Order it from your druggist or dealer, or Edmaston, Hayes & Co., Limited, Toronto. Sample box free if you mention this paper and enclose 25c stamp for postage.

Thanksgiving Dinner and Programme a Pleasing Success

The Trustees and Members of the Jarrow Church wish to express their sincere thanks and appreciation to all those who assisted in making the Supper and Musical Programme on Thanksgiving day Monday the 13th such a big success.

The "Ladies Aid" who gave such splendid service in preparing the dinner and waiting at the tables, also, assisting in the evenings entertainment to a very large extent is all credit due and is but a repetition of their unselfish service given in the past.

Quite a number of the talent came from other parts of the Circuit and rendered splendid assistance in making the Programme enjoyable and interesting. Miss M. Holloway of Jarrow opened the entertainment by giving an organ Solo which was listened to with interest. Mr. and Mrs. H. T. Harding well known through the Jarrow district rendered a Duet which was very acceptable accompanied by their son Mr. F. Harding who filled his position admirably on all occasions of the evening's programme. Mr. T. Daugherty (Baritone) was well received. Mrs. Hoskin (Soprano) gave a splendid Solo. We were favoured in having Mrs. Theron of the Batts Valley who gave us two splendid Readings. Mrs. J. A. Waite of Jarrow was the Elocutionist for the evening and received great applause.

Addresses were given by the Rev. Sidney Bainbridge of the University of Alberta also Rev. C. G. Hockin, B.A., B.D. of Irma. The evening's effort realized the Grand Sum of \$93.00 clear. Part of which will go to pay the debt on the church building which we are glad to state will give the people of Jarrow free of debt.

Are you going to Wainwright Saturday to get that choice Short-horn bull or heifer you promised yourself? There is some pretty roan calves and yearlings, get one or two, then ask your neighbors to call and see them. Cash unreserved auction sale, Saturday, October 25th, starts at one o'clock. Earl L. Cork, owner.

Miners are now at work turning out coal at full capacity. What better coal is obtainable than Humberstone? The Imperial Lumber Co handle Humberstone and also Tonfield.

Jarrow Church Services.

Services on the Jarrow circuit Sunday, October 26th are as follows:

Lynx	11 a.m.
Batts	3 p.m.
Rev. Mr. Hockin B. A., B. D.	
Jarrow	7.30 p.m.
Rev. P. McNabb, representative of the Canadian Bible Society	will conduct the service, also at Malbae on the same date commencing at 11 a.m.
Metropolitan	3.30 p.m.
Metropolitan Sunday school	2.30 p.m.
Jarrow Sunday school at 11 a.m.	
Walter Allen	

Look out for the Concerts of the Season to be given at Melbae and Batts in the near future. First class Talent engaged. Everybody come.

Circuit Meeting.

The Provost Circuit will hold its annual meeting 7 miles north of Longfield, Alta., in Trinity Lutheran church, Rev. H. T. Egedahl's charge, October 25-26. The meeting will open Friday morning 11 a.m., with opening sermon by Rev. T. O. Kjos. Rev. N. R. T. Braa will introduce the 6th and 7th petition in the Lord's Prayer. All welcome.

H. T. Egedahl, Sec'y.

Strayed.

from west half of sec 34-46-10-w4, two dark red mooley yearlings, banded [square] on left rib.

MOORE BROS., DEALERS, IRMA

"I Hope Every City and District Will Win My Flag"

When Edward, Prince of Wales—eager, bright eyed, smiling and sincere—arrived in Canada in August, and when he voiced his great admiration of the wonderful achievements of Canadians, on the fields of battle and at home, once again we were thrilled with joyous pride.

He asked concerning Canada's reconstruction programme, and when he was told of the Victory Loan 1919, he graciously consented to the use of his Coat of Arms on a flag, which is to be the prize of honour for districts achieving their quota in the loan.

In dedicating "The Prince's Flag" at Ottawa on Labour Day, His Royal Highness said in part:

"It is a great joy to me to be associated with the loan, which is the bridge between war and peace, and which is finishing off the job."

"I hope every city and district will win my flag."

Striking, and beautiful in design, this flag will form not only an unique memento of Victory Year, but a lasting and outstanding souvenir of the visit of His Royal Highness—a visit which will remain as one of the most memorable events in Canada's history.

The reproduction above shows the design of the flag. The body is white, the edge red; in the upper left hand corner is the Union Jack, and in the lower right hand corner the Prince of Wales' Coat of Arms.

The flag is made in two sizes, 4 feet 6 inches by 9 feet for small cities, towns and villages, and 7 feet by 13 feet 6 inches for cities of over 10,000 population.

Canada has been divided into canvassing districts by the Victory Loan Organization. Each city forms one district. Other districts have been determined according to population.

Each of these canvassing districts has been allotted a certain amount in Victory Bonds to sell. To win the Prince's Flag, therefore, a district has to sell its allotment. That is the one and simple condition.

Anticipating that many districts will buy far beyond their allotment, the organization decided that for each twenty-five per cent. excess of the quota one Prince of Wales' Crest be awarded. Thus 4 winners in a district doubling its quota will be the proud winners of four small crests for their Honour Flag. These crests will be sewn to the flag. The Prince's Crest—

the three ostrich plumes—is shown at the top of the coat of arms.

To every organization with fifty or more employees, where forty-five per cent. of the enrollment invests a total of ten percent. of the annual payroll in Victory Bonds, a supplementary Prince of Wales Flag in smaller form—48 inches by 34 inches—will be awarded.

The allotment for each district has been carefully considered, and is based on a conservative estimate of the purchasing power of the district.

Your district can sell its allotment and thus win the Prince's Flag, provided each person does his or her share.

You will gladly do your part and encourage your neighbour to do his.

Remember YOUR purchase may be the one that decides whether or not your district is to be the proud possessor of the Prince's Flag.

**The Prince's Motto is "I Serve"
Will You also Serve?**
